

4 New collections will be presented in Paris Interfilere.

- During the Interfilere Fair in Paris We will be presenting the SS2010 Intimate ranges from Dogi Spain, Dogi China and DOGIEFA, as well as a brand new concept created in the Spanish factory named *DOGITECH*
- We are located at the stand nº 3F31-3G32, we welcome you all to present the new ranges.
- The new concept *DOGITECH* consists of a new generation of very technical materials aimed at the functional and plus size markets.

After a profitable 4th quarter, the Spanish unit of Dogi is ready to exit the insolvency process by March 2010

- Despite the slow demand, thanks to the cost reductions and specially to the improvements on the manufacturing efficiency, the Spanish manufacturing Unit of Dogi International Fabrics has had a significant positive operating profit EBITDA during the period Oct - Dec 09.
- The Company is close to reach an agreement with the majority of the creditors, and it is now certain (scheduled) that the Company will be out from the Insolvency process in March 2010.
- The company structure has been rationalized and streamlined, and its core values are now **RELIABILITY AND INNOVATION**. Creative products, high quality materials, shorter lead times, customer orientation and best service together with overall performance being our drivers.
